Robert, any chance we could see EPA's calculations that are referenced in items 45 & 46 of the EPA NOV?

Also, regarding item 48 of the NOV, we are still of the opinion that our Cap by Rule provisions in Part 201-4 meet the federally enforceability requirements. We used EPA policy guidance (1995-97) when we first developed the cap by rule provisions in old 201-7.3 back in the mid 1990s. This approach has not been raised as an issue for the past 20+ years.

Thanks.
Mike
